Ask about this product

Manufacturer	Siemens
Catalog number	6es5241-1ab12
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.06 kgs
Product Type	Digital Position Decoder Module
Series	SIMATIC S5
Encoding Type	Incremental
Channel Count	1
Dimensions	135 mm x 170 mm x 35 mm
Weight	0.22 kg

Description

The Siemens 6ES5241-1AB12 is a digital position decoder module from the SIMATIC S5 series, designed for precise encoder matching in industrial automation environments. This single-channel module supports incremental encoding, ensuring accurate position decoding and seamless communication between sensors and programmable logic controllers (PLCs). Its robust construction meets the demands of continuous operation in industrial settings. The module is engineered for reliable position decoding and ensures seamless communication between sensors and programmable logic controllers (PLCs). Its robust construction meets the demands of continuous operation in industrial settings.
