Manufacturer	Siemens
Catalog number	6es5252-3aa11
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Product Number	6ES5252-3AA11
Brand	Siemens
Category	PLC
Description	CTRL MOD. R/B 6ES5-252-3AA13
Dimensions	200 mm x 250 mm x 50 mm
Weight	0.92 kg

Description

The Siemens 6ES5252-3AA11 is a specialized control module, designated as the IP252, designed for closed-loop control applications within the SIMATIC S5 PLC system. This module plays a crucial role in automation processes, ensuring precise control and coordination of various industrial tasks. It is engineered to handle complex control loops, making it ideal for applications requiring high precision and reliability. The IP252 module is characterized by its robust construction and reliable performance history, reflecting Siemens' commitment to quality and durability. Despite its robust build and reliable performance history, this product is classified under PM500: discontinued product or end of plm & support, indicating it has reached the end of its lifecycle. However, it remains repairable, offering a cost-effective alternative to replacement. Choosing to repair the 6ES5252-3AA11 can prolong its operational life, maintaining its functionality in existing industrial setups. Even though it is not future-proof, extending its usability can be an economical solution for businesses.
