Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.41 kgs
Power	7 W
Manufacturer	Siemens
Product Type	SINAUT ST7 TIM 33 Communications Processor
Application Area	Industrial Automation Communication
Discontinued	October 1, 2021
Weight	0.9 kg
Compatibility	SIMATIC S7-300

Description

The Siemens 6NH7800-3AA30 is a SINAUT ST7 TIM 33 communications processor designed for integration with the SIMATIC S7-300 PLC system. This module features an integrated MD3 modem, enabling reliable communication over analog dial-up networks. It is particularly suited for applications requiring stable and secure data transmission in industrial automation environments. The device is manufactured by Siemens, a leading provider of industrial automation solutions, ensuring high quality and reliability. The 6NH7800-3AA30 is part of the SINAUT product family, which specializes in telecontrol and communication solutions for automation systems. This module is discontinued as of October 1, 2021, but remains a viable option for existing systems requiring maintenance or replacement. Its robust design and proven performance make it a valuable component for maintaining the integrity and efficiency of industrial control systems.
