Manufacturer	Siemens
Catalog number	6es5101-8uu13
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	2.55 kgs
Signal Type	24
Relay Specifications	115 VAC
Voltage	115 V
Product Type	Module
Signal Level	24 V

Description

The Siemens 6ES5101-8UU13 is a central processing unit (CPU) module from the SIMATIC S5 series, designed for industrial automation applications. This module features 20 digital inputs operating at 24V DC and 12 relay contact outputs, facilitating versatile control and monitoring capabilities. It operates on a mains connection of 115V AC and does not include a backup battery or manual. As of October 1, 2005, this product has been discontinued and is no longer supported by Siemens. Despite its obsolescence, the 6ES5101-8UU13 remains a reliable component for legacy systems requiring dependable performance. Repair services are available to extend the usability of existing equipment, providing a practical solution for maintaining operations without major upgrades.
