Manufacturer	Siemens
Catalog number	6dd1683-0cd0
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	1.70 kgs
Voltage	24 V
Signal Type	24
Signal Level	24 V
Current	11 A

Description

The Siemens 6DD1683-0CD0 is a power supply module designed for the SIMADYN D system, providing a stable 5V DC output at 25A, with an input voltage of 24V DC. This module is essential for powering SIMADYN D components, ensuring reliable operation in industrial automation applications. Its robust design and high current capacity make it suitable for demanding environments where consistent power delivery is critical. Please note that this model has been discontinued by the manufacturer.
