Ask about this product

Manufacturer	Siemens
Catalog number	6es5701-0la11
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	1.81 kgs
Dimensions	310 x 360 x 40 mm
Weight	1.62 kg
Product Type	Expansion Rack
Compatible With	S5-115U Expansion Unit
Module Slots	6 slots
Central Controller Slot	1 slot
Discontinued Status	Discontinued as of October 1, 2022 date

Description

The Siemens 6ES5701-0LA11 is a mounting rack designed for the SIMATIC S5-115U programmable logic controller (PLC) system. This expansion rack enhances the scalability and functionality of the S5-115U system by providing additional slots for modules, thereby facilitating the integration of more components into the automation setup. The rack features a robust design suitable for various industrial automation tasks, ensuring reliable performance in demanding environments. It is specifically engineered to accommodate the S5-115U expansion unit, making it an essential component for users seeking to expand their existing Siemens automation systems. Despite its discontinued status as of October 1, 2022, the 6ES5701-0LA11 remains a valuable component within existing systems, offering a cost-effective solution to extend the usability of legacy setups. Opting for repairs over replacement can maximize investment and maintain system consistency, with specialized repair services available to ensure the unit's performance standards are upheld.
