Manufacturer	Siemens
Catalog number	6es5458-4ua11
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.19 kgs
Signal Level	60 V
Voltage	60 V
Current	0.5 A
Product Type	Module
Signal Type	60

Description

The Siemens 6ES5458-4UA11 is a digital output module designed for the SIMATIC S5 series, offering 16 relay-contact outputs with a floating configuration. Each output supports a voltage of up to 60V DC and a current of 0.5A, making it suitable for various automation applications requiring reliable and precise control. The module's compact design ensures efficient space utilization within control panels. As part of the SIMATIC S5-135/155U range, it integrates seamlessly with Siemens' automation systems, providing robust performance and ease of integration. Please note that this module has been discontinued as of April 1, 1999, and is no longer in active production. For current applications, consider exploring Siemens' latest offerings in digital output modules.
