Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.44 kgs
Industrial Safety	sink/source
Signal Type	24
Signal Level	24 V
I/O Channels	24 DI
Voltage	DC
Current	0.75 A
Product Type	Controller
Manufacturer	Siemens
Power Supply Type	DC
Industrial System	s7-200
Relay Specifications	75 A
Memory/Storage	16 KB
I/O Configuration	24

Description

The Siemens 6ES7216-2AF21-0XB0 is a compact CPU unit from the SIMATIC S7-200 series, designed for industrial automation applications. This model features a DC power supply and offers 24 digital inputs and 16 digital outputs, all operating at DC voltage levels. It is equipped with 16 KB of code

memory and 10 KB of data memory, providing sufficient capacity for various control tasks. Additionally, the unit includes two PPI/Freeport ports, enhancing communication capabilities and flexibility in integrating with other devices or systems. Please note that this model has been discontinued as of October 1, 2014, but remains repairable, allowing for extended usability of existing systems without immediate replacement.
