Manufacturer	Siemens
Catalog number	6es7315-1af01-0ab0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.25 kgs
Signal Type	24
Signal Level	24 V
Product Type	Module
Industrial System	s7-300

Description

The Siemens 6ES7315-1AF01-0AB0 is a high-performance CPU module from the SIMATIC S7-300 series, designed for complex automation tasks in industrial environments. This module features an integrated 24 V DC power supply and offers 48 KB of working memory, ensuring efficient processing and control capabilities. Its compact design allows seamless integration into existing systems, providing reliable and precise management of various applications. The CPU 315 is engineered to meet the rigorous demands of industrial automation, delivering robust performance and durability. Its specifications include a supply voltage of 24 V DC and a program capacity of 48 KB, making it suitable for a wide range of automation projects. Whether you're upgrading existing systems or implementing new automation solutions, the Siemens 6ES7315-1AF01-0AB0 offers the reliability and performance required for demanding industrial applications.
