Manufacturer	Siemens
Catalog number	6es5951-7nd31
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	1.77 kgs
Voltage	24 V
Current	15 A
Product Type	Module
Signal Type	24
Signal Level	24 V

Description

The Siemens 6ES5951-7ND31 is a power supply module designed for the SIMATIC S5-115U/H PLC systems. It provides a 24 V DC input and delivers multiple output voltages: 5 V DC at 7 A (without fan) or 15 A (with fan), 2.5 A at 5.2 V DC, and 0.35 A at 24 V DC. This modular design ensures efficient and stable power delivery, facilitating seamless integration into existing automation setups. The unit measures 195 mm in height, 310 mm in length, and 65 mm in width, with a weight of 1.76 kg. Despite its discontinuation status since October 1, 2005, the 6ES5951-7ND31 remains repairable, extending its usability in PLC infrastructures. Opting for repair over replacement can be cost-effective and reduce downtime.
