Description

The Siemens 6GK1243-0SA00 is a SINEC CP 2430 communication processor designed to connect SIMATIC S5-115U, S5-135U, and S5-155U programmable controllers to the AS interface (S1). This module enhances communication capabilities within industrial PLC systems, facilitating efficient data exchange and control processes. Despite being discontinued on September 1, 2001, the 6GK1243-0SA00 remains a critical component for maintaining legacy installations. Its repairable design offers a significant advantage for extending the operational life of existing systems. Comprehensive repair services are available to ensure continued performance and reliability.
