Manufacturer	Siemens
Catalog number	6es5500-7aa12
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Product Type	PG Interface Module
Product Family	SIMATIC S5
Compatible PLC	S5-110A
Manufacturer	Siemens
Application Area	Industrial Automation

Description

The Siemens 6ES5500-7AA12 is a Programmable Logic Controller (PLC) interface module designed for the SIMATIC S5 series, specifically the S5-110A PLC. This module facilitates communication between the Siemens PG 631/670 programmer and the S5-110A PLC, enabling efficient programming and system integration. Key features include compatibility with the S5-110A PLC, facilitating seamless communication between the programmer and the PLC. The module is part of the SIMATIC S5 series, known for its reliability and performance in industrial automation applications. As a discontinued product, the 6ES5500-7AA12 remains repairable, offering a cost-effective and sustainable solution for extending the usability of existing automation systems. This module is ideal for applications requiring reliable PLC programming interfaces within the SIMATIC S5 framework.
