Manufacturer	Siemens
Catalog number	6es5700-8mb11
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.33 kgs
Product Type	Bus Unit
Product Family	SIMATIC S5
Application Area	Industrial Automation
Connection Type	Screw Terminal Block
Housing Material	Metal

Description

The Siemens 6ES5700-8MB11 is a Bus Unit designed for the SIMATIC S5 series, specifically for the S5-100U PLC. This module facilitates communication between the PLC and other devices, ensuring efficient data transfer within automation systems. It features a terminal block for screw-type connections, providing a secure and reliable interface. The module is constructed with a metal housing, offering durability and protection in industrial environments. Its compact design allows for easy integration into existing systems, making it suitable for applications requiring robust and dependable communication solutions.
