Manufacturer	Siemens
Catalog number	6dd1648-0ab0
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	6.80 kgs
Product Type	ES1 Special Board
Product Family	SIMADYN D
Application Area	Industrial Automation
Repairable	Yes
Manufacturer	Siemens
Part Number	6DD1648-0AB0
Category	Podzespoły automatyki przemysłowej

Description

The Siemens 6DD1648-0AB0 is a specialized component from the SIMADYN D series, designed for voltage monitoring reset and bus status functionalities. This ES1 special board ensures precise voltage monitoring and reset operations, which are critical for maintaining the integrity and performance of various DRIVE systems. Originally tailored for specialized industrial applications, it stands out for its reliability in bus status monitoring. Despite being discontinued, the 6DD1648-0AB0 remains repairable, offering extended usability. Opting for repairs over replacement can be advantageous in terms of cost-effectiveness and sustainability. The component is compatible with Siemens' SIMADYN D series, ensuring seamless integration within existing systems. Its robust design and functionality make it a valuable asset for maintaining and enhancing industrial automation processes.
