Ask about this product

Manufacturer	Siemens
Catalog number	6es5417-7aa11
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.45 kgs
Product Type	Digital Output Module
Product Family	SIMATIC S5
Number of Outputs	8 outputs
Output Voltage	30V DC V
Output Current	1A

Description

The Siemens 6ES5417-7AA11 is a digital output module from the SIMATIC S5 series, designed for industrial automation applications. This module features eight relay outputs, each capable of handling 30V DC at 1A, providing reliable control for various automation processes. As part of the S5-110 family, it offers robust performance and compatibility within the Siemens automation ecosystem. Please note that this product has been discontinued by the manufacturer, and support may be limited. For detailed specifications and compatibility information, refer to the manufacturer's datasheet or consult with authorized Siemens distributors.
