Manufacturer	Siemens
Catalog number	6es5581-0ra11
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.24 kgs
Product Type	CP 581 Slot Module
Brand	Siemens
Part Number	6ES5581-0RA11
Category	SIMATIC S5 Communication Processors
Dimensions	8.0 x 2.0 x 11.0 inches
Weight	0.4 kg

Description

The Siemens 6ES5581-0RA11 is a CP 581 slot module designed for the SIMATIC S5 series, offering enhanced communication capabilities for industrial automation systems. This module serves as a communication processor, facilitating efficient data exchange between the SIMATIC S5 PLC and other devices within the automation network. Its robust design ensures reliable performance in demanding industrial environments, making it a valuable component for system upgrades or replacements. The 6ES5581-0RA11 is compatible with various SIMATIC S5 configurations, providing flexibility in system design and integration. Its installation is straightforward, allowing for seamless integration into existing setups. This module is ideal for applications requiring high-speed data processing and reliable communication, such as manufacturing control systems, process automation, and complex machinery operations. By incorporating the 6ES5581-0RA11, businesses can enhance their automation systems' efficiency and responsiveness, leading to improved operational performance and productivity.
