Manufacturer	Siemens
Catalog number	6es7401-2ta00-0aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	1.68 kgs
Product Type	Central Rack Module
Product Family	SIMATIC S7-400
Number of Slots	18 slots
Number of Segments	2 segments
Redundant Power Supply Support	Yes
Dimensions	482.5 x 290 x 27.5 mm
Weight	4.1 kg

Description

The Siemens 6ES7401-2TA00-0AA0 is a central rack module from the SIMATIC S7-400 series, designed to provide a robust and flexible foundation for industrial automation systems. This module features a centralized architecture with 18 slots, organized into two segments, allowing for efficient modular expansion and system configuration. It supports the integration of two redundant power supplies, enhancing system reliability and uptime. The rack is engineered to accommodate a wide range of Siemens S7-400 series modules, facilitating seamless integration and scalability. Its design ensures optimal communication and power distribution across all connected modules, making it an ideal choice for complex automation tasks requiring high availability and performance. The 6ES7401-2TA00-0AA0 is suitable for various industrial applications, including manufacturing processes, process control, and complex automation systems, where reliability and flexibility are paramount.
