Manufacturer	Siemens
Catalog number	6dd1683-0bb0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.77 kgs
Voltage	15 V
Current	7 A
Signal Level	5 V
Relay Specifications	7 A

Description

The Siemens 6DD1683-0BB0 is a power supply unit from the SIMADYN D series, designed to provide reliable power for industrial automation systems. This unit delivers a 5V output at 7A, a 15V output, and operates on a 230V single-phase input, ensuring compatibility with standard industrial power sources. Its robust design and precise voltage regulation make it suitable for various applications requiring stable and efficient power supply solutions. The 6DD1683-0BB0 is part of Siemens' SIMADYN D family, known for its high-quality components and integration capabilities in complex automation environments.
