Ask about this product

Manufacturer	Siemens
Catalog number	6es5318-3ua11
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.32 kgs
Component Specifications	im318
Product Type	Module
Product Series	SIMATIC S5
Decentralized Connection Distance	up to 3000 meters m
Application Area	Industrial Automation Systems
Manufacturer	Siemens
Connection Type	Cable Connector
Maximum Connection Distance	3000 meters m
Compatibility	SIMATIC S5 Series

Description

The Siemens 6ES5318-3UA11 is an Interface Module from the SIMATIC S5 series, designed to facilitate decentralized connections up to 3000 meters between extension devices and central controllers. This module enables seamless communication within industrial automation systems, ensuring reliable data transfer over extended distances. It is particularly suitable for applications requiring robust and efficient communication between distributed components. The 6ES5318-3UA11 is known for its durability and performance in demanding industrial environments, making it a valuable component for enhancing the connectivity and functionality of automation systems.
