Manufacturer	Siemens
Catalog number	6es5482-7lf21
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.41 kgs
Voltage	24 V
Current	0.5 A
Product Type	Module
Signal Type	24
Signal Level	24 V

Description

The Siemens 6ES5482-7LF21 is a digital input/output module from the SIMATIC S5 series, specifically designed for the S5-115F PLC system. This module features 16 isolated digital inputs and 16 isolated digital outputs, each operating at 24 V DC with a 0.5 A negative switching capability. Manufactured in Germany, it adheres to Siemens' robust engineering standards, ensuring precise control and seamless integration within legacy automation systems. Despite being discontinued as of October 1, 2022, the 6ES5482-7LF21 remains repairable, offering a cost-effective solution to extend the service life of existing equipment. Utilizing this module can enhance the reliability and efficiency of industrial automation processes.
