|---|---|
| **Weight** | 0.91 kgs |
| **Voltage** | 5 V |
| **Current** | 4 A |
| **Signal Type** | 230 |
| **Signal Level** | 230 V |
| **Relay Specifications** | 230 VAC |

## Description

The Siemens 6ES7407-0DA00-0AA0 is a power supply module designed for the SIMATIC S7-400 series programmable logic controllers (PLCs). This module provides a stable 5 V DC output at 4 A, ensuring reliable power distribution within automation systems. It accepts input voltages of 120/230 V AC, accommodating various industrial power standards. The compact dimensions of 25 x 290 x 217 mm and a weight of approximately 760 g make it suitable for integration into control cabinets with limited space. This power supply module is ideal for applications requiring consistent and efficient power delivery to PLC systems, contributing to the overall stability and performance of industrial automation processes.
