Manufacturer	Siemens
Catalog number	6fm1723-3ca10
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.27 kgs
Product Type	Positioning Module
Series	WF 723C
Encoder Compatibility	Serial-absolute or incremental position encoders
Axes Controlled	Up to 3 axes
Discontinuation Date	November 7, 2018
Successor Model	6FM1723-3CA11

Description

The Siemens 6FM1723-3CA10 is a positioning module from the WF 723C series, designed for precise motion control in industrial automation systems. This module interfaces with serial-absolute or incremental position encoders, enabling accurate positioning across up to three axes. It is particularly suitable for applications requiring high precision and reliability. The 6FM1723-3CA10 has been discontinued as of November 7, 2018, with the successor model being the 6FM1723-3CA11. Despite its discontinuation, the module remains a robust choice for machinery and automation systems needing reliable, precise control. Repair services are available to extend its usability beyond the end of the manufacturer's support.
